

## INTENSIVE CLEANER

Effective basic cleaning concentrate!

8019 Clear

### PRODUCT DESCRIPTION

Highly effective, slightly alkaline special cleaner for the removal of organic and inorganic pollutants in the interior and exterior. Ideal for intensive cleaning of oiled and waxed surfaces before the actual surface treatment with Osmo finishes.

### RECOMMENDED USE

Osmo Intensive Cleaner is recommended for all wooden surfaces finished with oils and waxes, e.g. flooring, wooden decking, furniture, as well as plastics, stainless steel and other water-repellent surfaces.

### INGREDIENTS

Alcalic basic cleaner (according to regulation EC 648/2004 for detergents): <5 % cationic surfactants; non-ionic surfactants; silicates; complexing chelation agent NTA and excipients.

Detailed declaration of ingredients available upon request.

### TECHNICAL DATA

Specific gravity: 1.01-1.03 g/cm<sup>3</sup>

Odour: Faint/mild, odourless after drying

pH-value (10 g/l): 10.9

### STORAGE

2 years and more if can is kept dry and tightly closed.

### SURFACE PREPARATION

Remove loose dirt with a solid broom/hand brush from the surface.

### METHOD OF APPLICATION

The cleaning concentrate should be mixed 1:10 to 1:20 with water. After applying cleaning mixture to the surface, loosen dirt and then rinse with fresh water. Do not allow fluid to dry on the surface. Rub vertical surfaces dry with a cloth and dry mop flooring surfaces

after the dirt has been removed thoroughly. Compatibility of the Intensive Cleaner must be tested on the surface before use.

### CLEANING OF TOOLS

With water and soap.

### COVERAGE

Approx. 30-100 m<sup>2</sup> per litre (depending on degree of contamination).

### NOTE

Surfaces should be finished with the relevant Osmo product (e.g. Osmo Osmo Polyx<sup>®</sup>-Oil for floorings, Bangkirai-Oil for wooden deckings etc.).

The Osmo Intensive Cleaner must be thinned. Using the cleaner in its undiluted form can lead to discoloration or damage of the surface you are intending to clean. Can cause discoloration and changes of the surface on unknown materials. Woods, rich of natural oils and ingredients (especially oak), become darker when treated with undiluted concentrate. Generally do a trial application also for diluted concentrate. Please avoid surface drying out. Not appropriate for daily maintenance.

### CAUTION

Keep out of the reach of children. Do not inhale steam/aerosol. Avoid contact with eyes and skin. In case of contact with eyes, rinse immediately with plenty of water and turn to a doctor. Please wear protective clothes, protective gloves and glasses while working with Osmo Intensive Cleaner. If swallowed, seek medical advice immediately and show the container or label. Reacts with acids under heat development. Risk of splashing! Observe the normal safety precautions for handling of chemicals.

Hazardous note for the concentrate:

Harmful: Xi: irritant. Irritating to eyes and skin.

Danger

## DISPOSAL

Dispose of product residuals and completely emptied packages according to the local official guidelines (EU-waste code key number 07 06 01). Only fully emptied tins can be recycled.

## COLOUR TONE

Nr. 8019 Clear

## CAN SIZES

1.0 l; 5.0 l
